

SCA Summer Reading Activities and Suggestions for Students Entering Second Grade

These books and activities are suggested for summer reading. The purpose of summer reading is to encourage a love for reading by having children sit down with a good book and an even better audience...his/her parents!

As with any book your child reads, parental preview and monitoring of the material is always wise. Students entering second grade are encouraged to read one from the attached list **and** one book of their choice and then complete the attached form (the form may also be printed from the school's webpage). You may help your child complete the form below, or you can cheer him/her on from the sidelines! Either way is fine as the end result is the goal.

Bring the form with you when you come back to school in August! We'll kick off our school year talking about the books you've read...I can't wait to hear which books you chose! If you'd like some book suggestions, you can look at the list on the back of this note. Accelerated Reader point values are included. There are many others to choose from, but this might give you some new ideas.

Have a great summer and enjoy some time relaxing with a good book. You never know where it might take you!

Some suggestions for fun books to look at over the summer for students entering second grade:

Brown, Marc - any book from the Arthur series (.5 points)
Kline, Suzy - any book from the Horrible Harry series (.5 points)
Any book from the Berenstain Bears series (.5 points)
